

## How did HUB get started?

- In 2010 the Building Partnerships to Reduce Crime (BPRC) approach of integrated service delivery began.
- Nipawin community agencies found there was a need to work together to better serve our community members.
- Nipawin Interagency Committee formed the Nipawin HUB as a way to model some of the good work that agencies were doing in other parts of the province and country.
- Our community HUB group was formed to support people and families in lowering the risk of possible involvement with each of the agencies, in the future, through high risk activities.
- Since 2013, Nipawin HUB has assisted over 65 individuals and families.

## The Community of Nipawin and the Nipawin Service Agencies present:

## NIPAWIN HUB

## What is HUB?

- Talking with HUB is **voluntary**.
- High levels of confidentiality are required by everyone.
- HUB is a multi-disciplinary team which meets every other week to identify and support high risk situations.
- HUB is made up of various agencies.
- By bringing agencies together to plan and support high risk situations, HUB makes it possible for a quick response to reduce the risk that is holistic and supportive in its approach.
- Interventions are taken straight to the individual/family with the use of the “door knock” (home visit) which includes an offer of support and assistance.
- Our goal is to provide appropriate supports **prior** to agencies needing to be officially involved.
- Our hope is to be proactive and preventative.

## The purpose of HUB:

- to address safety and wellness issues within our community.
- to focus on situations involving high risk to individuals and families.
- to quickly develop a short term plan to resolve high risk issues, typically within 24 to 48 hours.
- to deliver services to those in need before the situation gets worse.
- to involve the individual/family in the planning and intervention process.

## Who is involved?

The Nipawin HUB consists of representatives from the following agencies:

- Child and Family Programs
- Hospital
- Income Assistance Programs
- KidsFirst
- Mental Health & Addictions
- Nipawin Protective Services
- North East School Division
- Probations—Adult & Youth
- Public Health
- RCMP

### Types of situations the HUB might deal with:

- Child Welfare
- Parenting
- Addictions
- Mental Health
- Inadequate Housing
- Domestic Violence
- Maintenance of Property or Neighborhood
- Safety
- Elder Abuse
- Truancy
