Town of Nipawin Reminds Residents to Refrain from Pushing Snow onto Streets

“Creating Safer Roads for All”

November 19th 2024

The Town of Nipawin is reminding all residents that pushing snow from private property onto public streets is prohibited and creates hazardous conditions for drivers and pedestrians. Snow deposited in this manner obstructs traffic, narrows roadways, and increases the risk of accidents, especially as freezing temperatures can turn these areas into icy patches.

Our public works team works diligently to ensure Nipawin’s roads remain safe and accessible during the winter months. When snow is pushed from private properties onto public streets, it disrupts these efforts and creates potentially dangerous driving conditions for everyone.

The Town of Nipawin asks residents to ensure snow from their driveways and properties is deposited onto their own property or properly managed in accordance with municipal bylaws.

To report unsafe conditions or for further information about snow removal regulations, please contact the Town of Nipawin office at (306) 862 9866 or townoffice@nipawin.com

Together, let’s work to keep our roads safe this winter for everyone in our community. Thank you for your cooperation!
