Town of Nipawin Requests Patience and Cooperation During Snow Removal Efforts

Date: November 19th 2024

The Town of Nipawin's Works Department is actively working to clear snow from streets following recent heavy snowfall. Crews are committed to ensuring safe and passable roadways for residents, and we thank everyone for their patience as we navigate this significant cleanup effort.

Residents are reminded to drive according to road conditions and exercise caution near snow removal equipment. The Works Department is operating graders and other equipment to address priority routes and residential streets as quickly as possible.

To help expedite the process, we kindly request residents to avoid parking on the streets while crews are grading and plowing. This allows equipment to work more efficiently and ensures a more thorough cleanup of snow from roadways.

We understand the challenges this weather presents and appreciate the community's understanding and cooperation during this time. Let's work together to keep Nipawin safe and accessible for everyone this winter.

For updates on snow removal progress and other announcements, please visit the Town of Nipawin's website or follow us on social media.
