Snow Removal Reminder for Town of Nipawin Residents

As winter conditions continue, we would like to remind residents of a few important snow removal rules that help keep everyone safe and our streets clear.

• Snow from private driveways and sidewalks must not be pushed or piled onto town streets or lanes. This creates hazards and makes snow clearing more difficult.

• After a snowfall, please move vehicles off the street whenever possible so our crews can clear roads efficiently and curb to curb.

• For your safety, stay well back from snow removal equipment and give operators plenty of space to work.

These small steps make a big difference in keeping roads safe and accessible for emergency vehicles, school buses, and daily traffic.

Thank you for your cooperation and patience as crews work through winter conditions.
